

Remarks

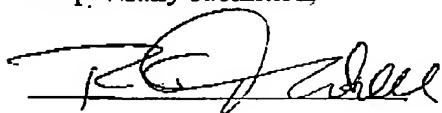

The lack of dependency in former claim 6 was an error, which has been corrected.

The wording of both claims 5 and 6 has been clarified. In particular, support for the present wording is found in the passage commencing at line 6, page 15.

The indication that the remaining claims are allowable is noted with appreciation.

Allowance and reconsideration of this application are therefore earnestly solicited.

Respectfully submitted,

Registration No. 34519
